

# LINX Report

UKNOF 3, London

Mike Hughes

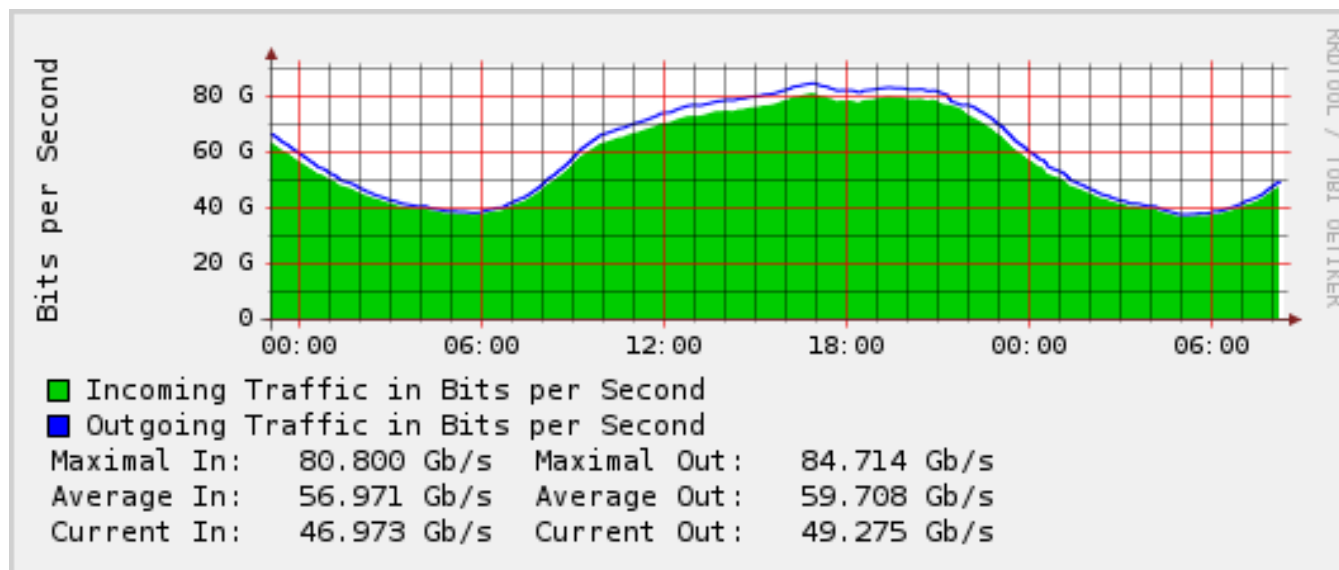

[mike@linx.net](mailto:mike@linx.net)

## Since last time

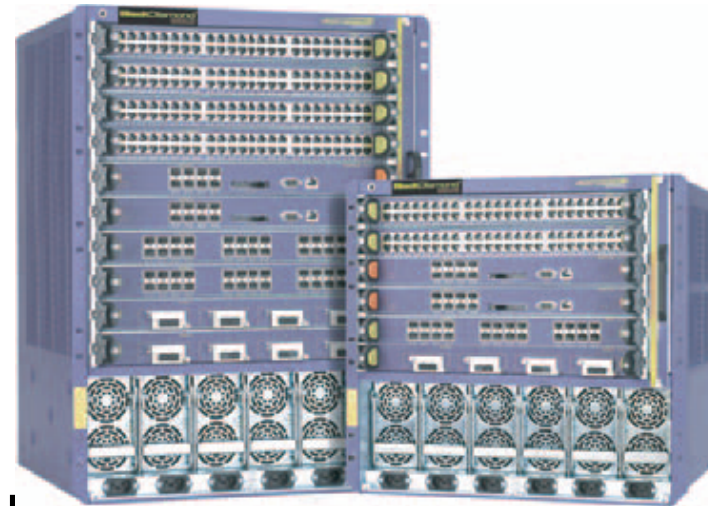

- Continued steady member growth
  - 196 vs 183 last time
- Switched traffic growth strong
  - 82G vs 65G
- Good prospect pipeline
- Extreme upgrade started

# Aaagh! It's a Traffic Graph

# Extreme Upgrade

- Black Diamond 8800 chosen for upgrade
  - Ease of migration
  - Good relationship with Extreme
- The first two switches are now active in the network, all okay so far

# What's Coming in 2006

- Will need to do some incremental upgrades on Foundry network
  - To handle 10G port demand
  - Probably Foundry RX16
- Further network level upgrades and enhancements
- Still working in the sflow area
  - SpamHints project

# Interesting Traffic Datapoint
