UKNOF 21st May 2008

A Brief History

The Vision

Broadband on 21CN

- Wholesale Broadband Connect (WBC)
 - Connect at 20 “Aggregation Points”
 - PPP Sessions delivered as L2TP or terminated on the BRAS and policy routed as PTA Mode
- Wholesale Broadband Managed Connect (WBMC)
 - Connect at 1 AP and have BT Wholesale transport the traffic back to you there
 - Delivered as L2TP, PTA or Direct to the Internet (like Central Plus)

Building a network for WBC

- Get space in each AP
- Connect to all 20 AP's
- Install Hardware
- Get XML Interface working
- Place orders

What's next?

- FTTP over WBC
- VLA
- WBCC
- EBD / BTL / Etherflow
 - Ethernet Backhaul Direct / Bulk Transport Link / Etherflow
