Docklands – UK's single point of failure

UK's single point of failure

- Docklands hosts lots of UK infrastructure
- No commercial reason to change
- UK aware, but don't want publicity

Docklands – UK's single point of failure

UK Infrastructure

- ISPs
- LINX
- Telcos
- VoIP providers
- Hosting
- Banks
- Credit card processing

STRATEGY : VISION : COMMUNICATION

Why change?

- Everyone as bad off as everyone else
- No commercial advantage
- If one organisation is unavailable, so is the competition

UK aware

- NISCC (“nicey”) aware
- Security services don't want information made public
- Unlikely to be change unless commercially advantageous
- Government steps in and pays

Docklands – UK's single point of failure

Thank you for listening!
